

HELLO , I'M KARTIK, 20, ENGINEERING ASPIRANT. MY LIFE= JUGGLING CLASSES, NOTES & COACHING.

MY STRUGGLES:

- ⌚ SOLVER APPS = SLOW (3-4 MIN)
- 📖 CHATGPT = LONG, GENERIC ANSWERS
- 📝 HINGLISH NOTES = NO AI SUPPORT, FAILED DURING JEE
- 👉 "WHAT WILL COME IN TOMORROW'S EXAM?"

A FRIEND TOLD ME TO TRY GPAI — MAYBE IT COULD FIX MY STRUGGLES. I TRIED GPAI. HERE'S WHAT I FOUND 🙋

📝 SOLVER (STEM QS)

I UPLOADED QUESTION → IT ANSWERED CORRECTLY → STEPS SHOWN LIKE TUTOR → ⚠️ BUT WAS SLOW , CAN'T WASTE TIME DURING EXAMS

🤖 CHATBOT

I TYPED "DIDN'T UNDERSTAND" → GAVE IRRELEVANT STORY EXPLANATION → ⚠️ EFFICIENCY LOW (📌 ADD LINKS OF YOUTUBE LECTURES OF THAT TOPIC , SAVES TIME + RECOMMEND SIMILAR QS FOR PRACTICE)

📷 IMAGE UPLOAD

NIGHT BEFORE CHEMISTRY EXAM, I UPLOADED 3QS → IT ASKED ME 'WHICH ONE?' , WHICH WAS NICE → WASTED 5 MINS BECAUSE IT WENT UNANSWERED → PANIC. THAT'S WHEN I REALISED CONSISTENCY MATTERS MORE THAN PERFECTION DURING EXAMS

📝 NOTE-TAKER

TRIED IN 1-HR CLASS → VOICE NOT CAPTURED → NOTES TOO GENERIC → ⚠️ NEEDS BETTER VOICE CAPTURE + HINGLISH DECODING

▼ WHY I STILL USE CHATGPT OVER GPAI

- ACCURACY → MORE RELIABLE ANSWERS → FEWER MISSES THAN GPAI
- COVERAGE → LARGER DATASET → ALMOST EVERY Q ANSWERED (EVEN IF GENERIC)
- UTILITY → MORE EXAM-ORIENTED + VOICE RECORDER SAVES TIME UNDER PRESSURE

👉 "RIGHT NOW, CHATGPT FEELS MORE RELIABLE IN CRUNCH TIME."

HOW GPAI CAN WIN

- HANDWRITTEN NOTES → PROF-STYLE, AUTHENTIC SOLUTIONS
- CHEATSHEET → TOPIC LIST → INSTANT EXAM-READY NOTES
- PAPER PREDICTOR → PAST 10-12 YRS QPS → PREDICTS LIKELY EXAM QS
- SMART NOTE TAKER+ QUIZES + LECTURE LINKS

👉 "WITH THESE, GPAI WON'T JUST COMPETE — IT'LL BE EVERY STUDENT'S EXAM BUDDY."

WHAT I NOTICED AS A STUDENT, BEYOND MY OWN STRUGGLES...

WHEN I USED GPAI, I SAW CLASSMATES SNEAKING 🤖 CHATGPT FOR ASSIGNMENTS, BUT NONE TRUSTED THEM FOR EXAMS 🎓 (FACULTY WARN OF PLAGIARISM). IN TIER-2 CITIES 🌐 POOR INTERNET + LANGUAGE GAPS KEEP MANY OUT. THAT'S WHY GPAI'S FREE, MULTILINGUAL, STEM-FIRST FOCUS FEELS LIKE THE BRIDGE INDIA NEEDS 🚀.

MOST AI FELT GENERIC = EASY ENTRY (ALREADY TAPPED)

- INDIA = WORLD'S LARGEST STUDENT AI MARKET → 86% OF STUDENTS 🎓 USE AI (90% HIGHER ED, 85% STEM 🧪)
- 📚 STUDENTS USE AI MAINLY FOR ASSIGNMENTS & LAST-MINUTE HELP, NOT SERIOUS EXAM PREP.

UNTAPPED GOLDMINE – JEE/NEET (15–17L STUDENTS)

- JEE QS = NEW EVERY YEAR → UNSOLVABLE BY CHATGPT.
- HUGE UNMET NEED: 27.5% ALREADY USE AI FOR EXAM PREP, BUT NONE SOLVE JEE.
- GPAI'S PROFESSOR HANDWRITTEN NOTES = MOAT & GAME-CHANGER.

- LOW AI ADOPTION IN WEST → US/EUROPE UNIVERSITIES USE AI-PLAGIARISM CHECKERS → STUDENTS CAN'T RELY ON CHATGPT FOR ASSIGNMENTS.
- INDIA FOLLOWS SAME PATH → IITS, IIMS, TOP COLLEGES ALSO DISCOURAGE AI-WRITTEN ASSIGNMENTS → TEACHERS PUSH "KNOW AI, DON'T DEPEND ON AI"

➔ NOT ANOTHER CHATGPT → INSTEAD OF GENERIC Q&A, GPAI IS BUILT AS AN EXAM-CENTRIC AI TUTOR THAT EXPLAINS SOLUTIONS STEP-BY-STEP LIKE A TEACHER.

➔ LEARNING + FEEDBACK LOOP → BEYOND ANSWERS, GPAI LINKS VIDEOS & TOPICS FOR REVISION, QUIZZES YOU ON SIMILAR QS, AND CHECKS YOUR OWN SOLUTIONS TO PINPOINT MISTAKES.

➔ ALL-IN-ONE EXAM BUDDY → CHEAT-SHEET BUILDER, PAST PAPERS, PERSONALIZED CORRECTIONS — EVERYTHING NEEDED FOR LAST-MINUTE PREP IN ONE TRUSTED PLATFORM.

Market Reality Data

High Dropout in edtech

JEE/NEET market size: ~17M test-takers annually

AI adoption: 27.5% of students report using AI for exam prep (Statista/India Today survey, 2023).

India's student base: 315M students (world's largest) → 90M in higher ed, 85% STEM.

Competitor usage: ChatGPT → 82.5% awareness among students, Grammarly → 52% (NASSCOM report).

GPAI-Strategic Market Plan & Integration

I ASKED WHAT'S ON
TOMORROW'S EXAM —
GPAI IS THE FIRST AI
THAT CAN ACTUALLY
GET ME READY FOR IT

WHY THIS GTM WORKS

- ✓ **Unstop:** 5M+ verified student users across 3,000+ campuses
→ ideal for broadcast
- ✓ **Brainly:** 20M MAUs India
→ direct overlap with GPAI's target
- ✓ **Doubtnut:** 2.5M DAUs
→ proven STEM Q&A adoption
- ✓ **Campus ambassadors:** FFT has 500%+ student influencers; ambassador-driven tools see 40-60% faster adoption
- ✓ **School integration:** EduSchools network covers 8,000+ schools in Tier II/III

GTM

- **Campus Broadcast:** Partner with Unstop to reach thousands of campuses; target 5-7M users in Year 1.
- **Campus Ambassadors:** Recruit via FFT & other popular student channels; one ambassador per major college with free access + LORs; drives 50% DAU increase.
- **School Integration:** Partner with EduSchools or direct school tie-ups for AI-based assignments; expands reach in Tier II/III cities.
- **Leverage Existing Platforms:** Tap into Brainly (20M MAUs) and Doubtnut (13M MAUs) to accelerate adoption among STEM students.
- **Feature Focus:** Launch handwritten notes, exam prediction engine, and AI cheat sheets to differentiate from ChatGPT/Grammarly; improves engagement by 30-40%.
- **AI Reliability & Expansion:** Invest in accuracy, Hinglish + English handling, and regional adoption, building trust and long-term retention.
